MOUNT

Why you can count on Corromount

Corromount is 100% Australian and sustainably made in Byron Bay, Australia from environmentally friendly, non-toxic, WPC. The entire range is durable, and UV stabilised to stand the test of time, against the harshest of Aussie weather elements.

Corromount has been designed by a builder as an easy-to-use solution that ensures corro fixtures and installations have a polished, professional look now, and into the future. The Corromount Range make fit-offs a quick task, with no filling in, can take the weight of the heaviest of applications and creates a smooth, water-tight finishing touch that can be sanded, painted, or left as is.
